NEVER GO ALONE

RECOVERY GEAR

Outback Armour recovery products are designed & engineered in-house to have the strength, durability & reliability required for the most demanding applications. All core recovery products are independently tested and certified for ratings to the highest Australian Standards for the safety of you, your vehicle and bystanders.

Our range of feature-rich recovery products has been developed in conjunction with off-road industry experts and extensive user feedback.

TECHNICAL SPECIFICATIONS

RECOVERY HARDWARE

- * 4.75T & 5.75T rated bow shackles
- * 10T rated snatch block
- * 10T rated recovery hitch
- * 3D CAD engineered
- * precision manufactured
- * certified to Australian Standards

RECOVERY BAGS

- * water/tear resistant
- * high strength reinforced PVC
- * original YKK heavy duty zippers

RECOVERY STRAPS

- * 6T, 8T, 11T & 15T rated snatch straps
- * 4T rated recoil tow strap
- * 10T rated equaliser strap
- * 10T rated tree trunk protector strap
- * 10T rated winch extension strap

SUSPENSION

OFF-ROAD

ARMOURED

MILITARY

Outback Armour suspension products are designed & engineered in-house to have the strength, durability, performance & reliability required for the most demanding applications.

Benefit from more than 35 years experience with our full range of struts, shock absorbers, steering dampers, coil springs, leaf springs, u-bolts, shackles, pins and associated fitment hardware.

TECHNICAL SPECIFICATIONS

SHOCK ABSORBERS & STRUTS

- * performance & internal adjustable bypass
- * seamless high pressure twin tube
- * nitrogen gas over semi-synthetic oil
- * high temperature multi lip viton seal
- * hardened chrome piston rod
- * performance high-flow piston
- * heavy duty multi-disc valving
- * extra strong forged single piece strut leg
- * high density engineered rubber bushes
- * high strength adjustable height spring seat

COIL SPRINGS

- * high stress vanadium alloy steel
- * precision hot wound
- * scragg tested & load rated

LEAF SPRINGS

- * high stress alloy spring steel
- * integrated slipper pads
- * HDPE clip silencers
- * scragg tested & load rated

***3 YEAR
UNLIMITED KM
WARRANTY**

* 1 year on strut bushes

TERMINOLOGY	UNIT	DETAILS
Centre Wheel to Guard - CWG	mm	<p>CWG (Centre Wheel to Guard) is measured vertically from the centre of the wheel to the under-side of the guard on each corner of the vehicle.</p> <p>Taking the measurement from the centre of the wheel provides an accurate point of comparison across multiple vehicles, excluding any impact of wheel or tyre selection.</p> <p>The CWG measurements should be recorded prior to and following the installation of suspension.</p> <p>Note: BSD (Bump Stop to Diff-Housing) is the clear space measured between the bump stop and diff housing on TLC79.</p>
Max/Min Acceptable CWG	mm	<p>Max/Min Acceptable CWG are shown as a recommended guideline only, indicating the recommended safe and/or legally acceptable vertical height limits of the vehicle.</p>
Left Axis - CWG	mm	<p>Shows the CWG height that can be reasonably expected for each leaf spring variant, relative to applied load.</p>
Bottom Axis - Load	KG	<p>Shows the load applied in addition to the standard original equipment style-side tray (or steel tray in the case of the TLC79).</p>

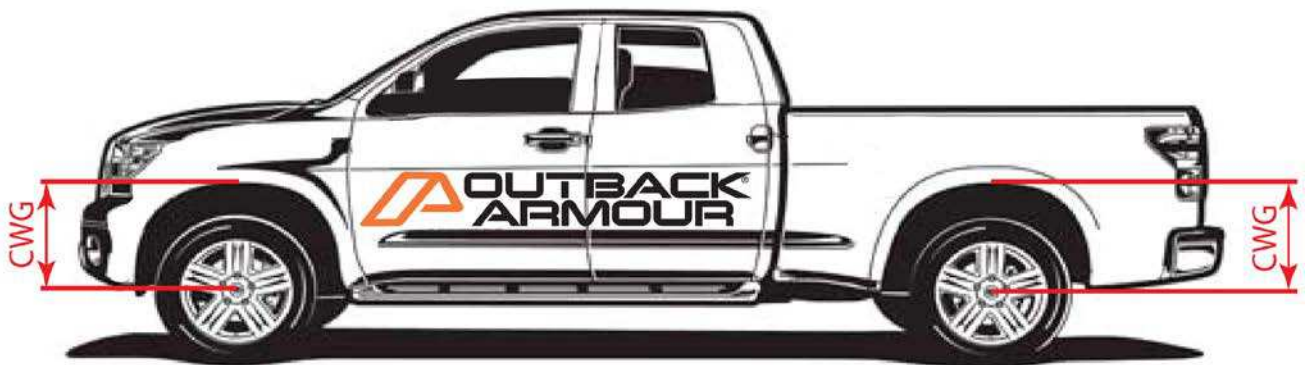

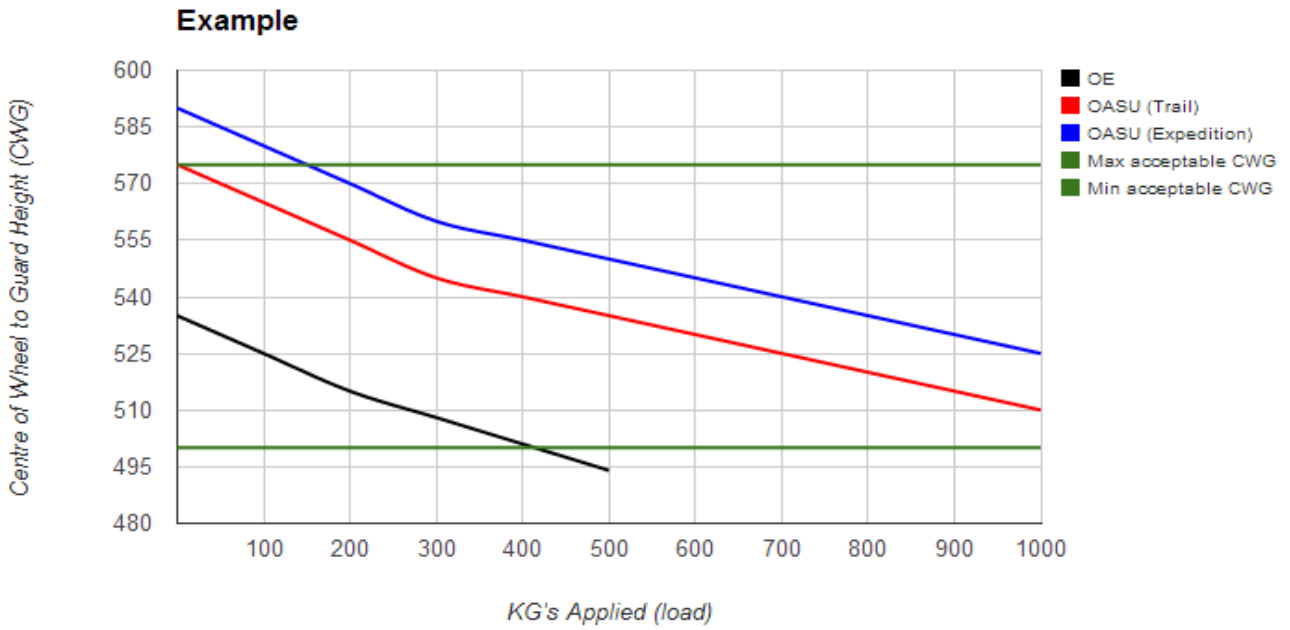

GRAPH INTERPRETATION

In the example graph on the facing page, the following information can be ascertained:

- 1 The min & max recommended acceptable vertical height for the vehicle are 500mm & 575mm respectively.
2. The original equipment leaf spring (OE, black trace) ride height starts at 535mm CWG unladen and drops below the minimum acceptable vertical height after 400kg of applied load.
3. The Outback Armour "Trail" spec leaf spring provides a ride height of 575mm CWG when unladen and does not drop below the minimum acceptable vertical height after 1000kg of applied load.
4. The Outback Armour "Expedition" spec leaf spring provides a ride height of 575mm CWG after an additional 150kg of applied load and does not drop below the minimum acceptable vertical height with more than 1000kg of applied load.

Note: When selecting the appropriate leaf pack for a specific application, the applied load required to meet the maximum vertical height should always be considered for vehicle safety and reliability.

EXAMPLE GRAPH

FORD RANGER PJ/PK

9/2006 - 8/2011

PRODUCT	PART NO.	QTY	DETAILS
Shock Absorbers (front)	OASU0160008 \$175 ea.	2	Performance - 60mm twin tube. Complete set of rubber bushes, washers & dust boot included.
Shock Absorbers (rear)	OASU0160009 \$175 ea.	2	Performance - 60mm twin tube. Complete set of rubber bushes included. Steel shroud.
Torsion Bars (pair)	OASU1211150 \$295 pr.	1	Trail / Expedition <i>Increased rate, 1025mm length, 27mm diameter.</i>
Leaf Springs	OASU1149001 \$250 ea.	2	Trail - 35mm lift (approx unladen) <i>4 primary + 2 secondary</i>
	OASU1149002 \$275 ea.	2	Expedition - 35mm lift (@ approx 250kg load) <i>4 primary + 2 secondary</i>

SUSPENSION KITS - FRONT

PERFORMANCE v	ADJ. INTERNAL BYPASS v	
------------------	---------------------------	--

Trail & Expedition

Lift front: 30mm (approx, height adjustable struts to 45mm)

OASU912600T \$760 kit	Not available for this vehicle	
2x OASU0860009 (struts)		

* kit prices include struts listed above plus the following parts *

1x OASU1026003 (coil springs)

* Only suits models where sway bar links to control arm (not strut leg).

Lift heights are approximate and may vary depending on vehicle or product tolerances and load distribution.

SUSPENSION KITS - REAR

PERFORMANCE v	ADJ. INTERNAL BYPASS v	
------------------	---------------------------	--

Trail - Non Nivomat Lift rear: 40mm (approx unladen)
Suits vehicles with light or occasional medium loads

OASU922600T \$675 kit	Not available for this vehicle	
2x OASU0160026 (shocks)		

* kit prices include shock absorbers listed above plus the following parts *

1x OASU1026004 (coil springs)

* Shock does not fit with Nivomat suspension mounts. Can use oem standard mounts to fit this shock absorber.

Expedition - Non Nivomat Lift rear: 40mm (@ approx 100kg load, heavier spring rate for towing)
Suits vehicles with constant medium or occasional heavy loads

OASU922600E \$675 kit	Not available for this vehicle	
2x OASU0160026 (shocks)		

* kit prices include shock absorbers listed above plus the following parts *

1x OASU1026006 (coil springs)

* Shock does not fit with Nivomat suspension mounts. Can use oem standard mounts to fit this shock absorber.

Trail - Nivomat Lift rear: 40mm (approx unladen)
Suits vehicles with light or occasional medium loads

OASU922601T \$675 kit	Not available for this vehicle	
2x OASU0160068 (shocks)		

* kit prices include shock absorbers listed above plus the following parts *

1x OASU1026004 (coil springs)

* Shock fits with Nivomat suspension upper shock absorber mounts.

* Must replace coil springs to maintain GVM and tow capacity.

Expedition - Nivomat Lift rear: 40mm (@ approx 100kg load, heavier spring rate for towing)
Suits vehicles with constant medium or occasional heavy loads

OASU922601E \$675 kit	Not available for this vehicle	
2x OASU0160068 (shocks)		

* kit prices include shock absorbers listed above plus the following parts *

1x OASU1026006 (coil springs)

* Shock fits with Nivomat suspension upper shock absorber mounts.

* Must replace coil springs to maintain GVM and tow capacity.

Lift heights are approximate and may vary depending on vehicle & product tolerances and load distribution.

PRODUCT	PART NO.	QTY	DETAILS
Struts Max CWG: 585	OASU0860088 \$220 ea.	2	Performance - 60mm twin tube. Spacer ring adjustable height spring seat. Complete set of rubber bushes, washers & dust boot included.
	OASU0865088-ADJ \$320 ea.	2	Adjustable Internal Bypass - 65mm twin tube. Threaded variable height spring seat. Complete set of rubber bushes, washers & dust boot included.
Shock Absorbers	OASU0160088 \$175 ea.	2	Performance - 60mm twin tube. Complete set of rubber bushes included. Steel shroud.
	OASU0160088-ADJ \$220 ea.	2	Adjustable Internal Bypass - 60mm twin tube. Complete set of rubber bushes & dust boot included.
Coil Springs (pair)	OASU1088001 \$260 ea.	1	Trail - 35mm lift (approx unladen, adj. struts to 40mm) <i>With 10mm spring seat spacer installed. Use the supplied spacer rings on struts for vehicles with added accessories.</i>
	OASU1088003 \$260 ea.	1	Exped / HD - 35mm lift (@ approx 100kg load, adj. struts) <i>With 15mm spring seat spacer installed. Heavier spring rate than OASU1088001. Suits vehicles with heavy bullbar & winch combinations.</i>
Coil Springs (rear pair)	OASU1088002 \$260 pr.	1	Trail - 35mm lift (approx unladen)
	OASU1088004 \$325 pr.	1	Expedition - 35mm lift (@ approx 150kg load)
	OASU1088006 \$350 pr.	1	Expedition HD - 35mm lift (@ approx 300kg load)
<i>** Refer coil spring graph following for approximate deflections under load.</i>			

ACCESSORY ITEMS & CORRECTION COMPONENTS

Bump Stops	OASU4230004 \$95 kit.	1	Rear - Rubber, extended progressive rate (2x 110mm).
Headlight Adjustment Bracket	OASU3730002 \$30 ea.	1	Bracket required to adjust headlight angle on lifted vehicles with HID headlights.
Sway Bar Relocation Kit	OASU3730004 \$30 ea.	1	Relocates the sway bar mounting point to original position. Must have on all lifted vehicles.
Strut Mount	OASU0740001 \$80 ea.	2	Supplied with all required nuts, washers and bushes.

* Ride heights approximate only, based on standard dual cab style-side ute with no additional load, unless otherwise stated.

* Outback Armour recommend that a minimum of two thirds of the original suspension travel in each direction is retained for optimal performance and durability.

RECOMMENDED RECOVERY GEAR

Snatch Strap	OASS6T9M	1	Dynamic Snatch Strap - 6T/9M (2.00T - 3.00T)
Recovery Kits	OAQUICKSKST	1	Quick Snatch Kit - Small Truck
	OACOMPSKST	1	Comp Snatch Kit - Small Truck
	OAWINCHKIT	1	Winch Utility Kit

** Complete range of Outback Armour recovery gear available at rear of this guide.

Mercedes Benz X-Class Coil Spring Deflection

* CWG (Centre Wheel to Guard) measured from centre of wheel to under-side of guard.

* Max/Min Acceptable CWG are shown as a recommended guideline only.

* CWG Heights approximate only, based on a standard dual cab style-side ute with no additional load.

Notes:

PRODUCT	PART NO.	QTY	DETAILS
Struts Max CWG: 570 (F) Max CWG: 595 (NF)	OASU0854010 \$220 ea.	2	Performance - 54mm twin tube. Spacer ring adjustable height spring seat. Complete set of rubber bushes, washers & dust boot included.
	OASU0850010-ADJ \$250 ea.	2	Adjustable Internal Bypass - 50mm twin tube. Threaded variable height spring seat. Complete set of rubber bushes, washers & dust boot included.
Shock Absorbers	OASU0154001 \$175 ea.	2	Performance - 54mm twin tube. Complete set of rubber bushes & dust boot included.
	OASU0150001-ADJ \$200 ea.	2	Adjustable Internal Bypass - 50mm twin tube. Complete set of rubber bushes & dust boot included.
Coil Springs (pair)	OASU1047001 \$260 pr.	1	Trail/Exped - 35mm lift (approx unladen, adj. struts to 50mm) <i>For vehicles with added accessories, use the supplied spacer rings on struts to retain vehicle ride height.</i>
Leaf Springs	OASU1147001 \$250 ea.	2	Trail - 40mm lift (approx unladen) 4 primary + 2 secondary
	OASU1147002 \$270 ea.	2	Expedition - 40mm lift (@ approx 250kg load) 4 primary + 2 secondary
	OASU1147003 \$290 ea.	2	Expedition - 40mm lift (@ approx 500kg load) 4 primary + 2 secondary
<i>** Refer leaf spring graph following for approximate deflections under load.</i>			
Leaf Spring Bush Kit	OASU210022K \$135 kit	1	12 polyurethane bushes & 2 inner tubes
U-bolts	OASU2372001 \$15 ea.	4	Suits leaf springs: OASU1147001, OASU1147002 & OASU1147003 M12 x 72 ID (SQR) x 175 L
<i>** All u-bolts hardened steel, rolled threads, deep nuts & spring washers.</i>			
Pins	OASU2500042 \$20 ea.	2	Greasable, hardened steel
Shackles	OASU2400055 \$35 ea.	2	Greasable, hardened steel pins

ACCESSORY ITEMS & CORRECTION COMPONENTS

Bump Stops	OASU4247001 \$88 ea.	1	Shortened upper bump stops. Allows additional control arm droop for suspension travel.
	OASU4210004 \$165 kit	1	Rear - Rubber, extended progressive rate (110mm).
Strut Mount	OASU0747004 \$80 ea.	2	Supplied with all required nuts, washers and bushes.
Tailshaft Spacer	OASU3747001 \$140 ea.	1	13.25mm spacer. Suits 2 piece tailshafts only.

* Ride heights approximate only, based on standard dual cab style-side ute with OE overfender flares and no additional load, unless otherwise stated.

* Outback Armour recommend that a minimum of two thirds of the original suspension travel in each direction is retained for optimal performance and durability.

* When raising Triton models with a 2 piece tailshaft, a tailshaft spacer should be installed between the diff flange and tailshaft flange to re-centralise and reduce the thrust load of the centre bearing. This may not reduce any vibration issues.

* Leaf Spring Wedges may assist in reducing tailshaft vibration which is an issue common to this vehicle when raised.

* If tailshaft vibrations persist, modifying the two-piece assembly to a single piece tailshaft is an effective solution.

TOYOTA FORTUNER GENERATION 3

2015 +

PRODUCT	PART NO.	QTY	DETAILS
Struts Max CWG: 560	OASU0864016 \$220 ea.	2	Performance - 60mm twin tube. Spacer ring adjustable height spring seat. Complete set of rubber bushes, washers & dust boot included.
	OASU0865001-ADJ \$320 ea.	2	Adjustable Internal Bypass - 65mm twin tube. Threaded variable height spring seat. Complete rubber bushes, washers & dust boot included.
Shock Absorbers	OASU0160007 \$175 ea.	2	Performance - 60mm twin tube. Complete set of rubber bushes & dust boot included.
	OASU0160007-ADJ \$220 ea.	2	Adjustable Internal Bypass - 60mm twin tube. Complete set of rubber bushes, brake line spacer kit & dust boot included.
Coil Springs (front, pair)	OASU1015001 \$260 pr.	1	Trail - 35mm lift (approx, height adj. struts to 50mm) <i>Suits vehicles with no front accessories.</i> <i>Springs seat spacers supplied with struts to adjust ride height.</i>
	OASU1015003 \$260 pr.	1	Expedition - up to 50mm lift (approx, adj. struts to 50mm) <i>Suits vehicles with bullbars and medium front loads.</i> <i>Springs seat spacers supplied with struts to adjust ride height.</i>
Coil Springs (rear, pair)	OASU1016004 \$260 pr.	1	Trail - 45mm lift (approx unladen)
	OASU1016006 \$260 pr.	1	Expedition - 50mm lift (@ approx 150kg load)
	OASU1016008 \$260 pr.	1	Expedition HD - 50mm lift (@ approx 300kg load)

ACCESSORY ITEMS & CORRECTION COMPONENTS

Bump Stops	OASU4210102 \$27.50 ea.	2	Front - Rubber, extended progressive rate (60mm/M10x25mm)
Centre Bearing Spacer Kit	OASU3715002 \$45 kit	1	Supplied with all required washers, spacers & bolts. Recommended for all lifts to improve tailshaft angle and reduce vibrations.
Strut Mount	OASU0715002 \$80 ea.	2	Supplied with all required nuts, washers and bushes.

* Ride heights approximates only, with no additional load, unless otherwise stated.

* Outback Armour recommend that a minimum of two thirds of the original suspension travel in each direction is retained for optimal performance and durability.

RECOMMENDED RECOVERY GEAR

Snatch Strap	OASS6T9M	1	Dynamic Snatch Strap - 6T/9M (2.00T - 3.00T)
Recovery Kits	OAQUICKSKST	1	Quick Snatch Kit - Small Truck
	OACOMPSKST	1	Comp Snatch Kit - Small Truck
	OAWINCHKIT	1	Winch Utility Kit

** Complete range of Outback Armour recovery gear available at rear of this guide.

TERMS & CONDITIONS OF SALE

as at January 2014.

GENERAL

- 1 Outback Armour provides general application and correct usage guidelines for its products to assist with product selection. Any customer making the decision to modify or equip their vehicle with aftermarket products of any kind assumes all risk and responsibility for the suitability of those chosen modifications or accessories used.
- 2 Goods are sold with the express and/or implied customer acceptance of these terms and conditions of sale and the Outback Armour privacy and warranty policies, available on the outbackarmour.com.au website.
- 3 Where products are delivered to a customer:
 - a. on Outback Armour's freight account, our responsibility and risk ceases upon delivery to and acceptance of the shipment by the customer from the transportation company.
 - b. on the customer's freight account, our responsibility and risk ceases on pick-up by the customer's transportation company.
- 4 All products should be inspected for loss or damage upon receipt and claim submitted immediately, but no later than 7 days following receipt of goods, to Outback Armour or the customer's transportation or insurance company as the case requires.
- 5 Outback Armour shall not be liable for any consequential loss or damage.

RETENTION OF TITLE

- 1 The goods shall remain the property of Outback Armour until they are paid for in full and if the customer has possession of the goods, but they are still owned by Outback Armour, the customer shall be the trustee of those goods until they are paid for in full.
- 2 If the goods have not been paid for within the agreed terms of trade or the customer has become insolvent, the customer authorises Outback Armour to recover and account for such goods for which Outback Armour has not been paid, or to recover other Outback Armour goods in the customer's possession to the same value.

GOODS RETURN

- 1 Outback Armour will accept goods returned for credit within 14 days from purchase provided:
 - a. an Outback Armour "return authorization number" has been requested in advance and accompanies the shipment together with a copy of the original invoice for returned goods if approval is granted.
 - b. any and all freight charges must be to the customer's account or pre-paid by the customer.
- 2 The goods must be in complete, unaltered and merchantable condition excluding normal wear and tear to packaging.
- 3 Customer acceptance of the goods means the acceptance of these terms and conditions.

Note: These terms and conditions are subject to change at any time without notification.

WARRANTY POLICY

as at January 2014.

WARRANTY TERMS & CONDITIONS

Outback Armour warrants its products to be free from faults or defects in workmanship and materials for the warranty term, from the date of retail sale, where used for the specified intended purpose and application, to the original purchaser only, with proof of purchase.

Outback Armour's obligation under this warranty is limited to the repair or replacement of the defective product at Outback Armour's option and to the extent permitted by law does not extend to cover claims for any other loss, damage or injury whether as a consequence of or arising from any defect or breakage of the product, or otherwise.

OUTBACK ARMOUR PRODUCTS	WARRANTY TERM
Shock absorbers, struts & steering dampers	3 years, unlimited kilometres (excludes strut mount bushes: 1 year)
Coil, leaf & torsion bar springs	3 years, unlimited kilometres
U-bolts, shackles & pins	3 years, unlimited kilometres
Other suspension components	3 years, unlimited kilometres

This warranty specifically excludes liability for:

- a. normal wear and tear and product finish.
- b. any labour, shipping/freight, removal, installation or other incidental costs.
- c. products used in: off-road motor sport, military, armoured vehicles or applications for which the product was not originally designed.
- d. damage occurring on vehicles loaded in excess of manufacturers GVM specifications.
- e. damage caused by alteration, incorrect installation or fitment, lack of or improper maintenance, abuse or neglect.

ENQUIRIES & CLAIMS

Warranty claims should be made directly with the authorised dealer where the products were purchased from or directly with Outback Armour under approved circumstances. Product may be required to be returned to Outback Armour for warranty inspection.

All warranty claim submissions must be submitted with proof of purchase for the products and a completed Warranty Claim Submission form. Download Warranty Form from the outbackarmour.com.au website.

For additional information about this warranty, please contact us:

AUSTRALIAN COMPETITION & CONSUMER ACT 2012

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.
